I think that's fair to say. There may still be a few minor tweaks as we go through the review process and catch things, but the permits capture changes to the 2019 Drafts and the comments have been resolved.

Attached is a link to the markup copy of the Final Class V Permit.

Copies of both permits are available at the UIC R8 SharePoint site under Home/Dewey Burdock Class III Permit and Home/Dewey Burdock Class V Permit.

Hi Rick and Valois: to give Darcy and Sarah some context, is it fair to say these versions capture changes made since issuing the second draft permits in August, 2019 and that the comments included have (mostly) been resolved?

Rick: I noticed the attached Class V permit is a clean version so its not clear what was changed from last year. Do we have a marked up version showing those changes/comments?

Thanks,

Douglas

I think the permits are ready. Those are the links to use.

I haven't updated the Class III table of contents yet, but that won't impact your review.

Still working on the change document. I didn't realize Rick started a new version, so I was still tidying up the old version. ☺ I will move my updates to Rick's new document and let you know when that is done.

Hi Gary,

Here is are the links to the final permits. I'm not sure we have incorporated the final version of the ESA mitigation measures yet. We will review your comments below and maybe set up a call to talk through them, if you think that would be helpful.

We appreciate your review and input!

Thanks for letting me take a look at this. I think I need to get a bit more information for clarity. Is a copy of the permit available for reference? I've made the following notes below:

Ex. 5 Deliberative Process (DP)

Be happy to discuss and get a bit more clarity on my end.

I am copying in Valois and Rick FYI.

Please let me know if you have any comments by Monday COB if possible.

Once we have consensus, I will share with Kimi and Lucita for any final editing, etc.

Thanks,

Douglas
